**RESPONSE AND AMENDMENTS
and Petition for Extension of Time**

Dear Sir:

In connection with the Office Action mailed 3 October 2001, the period for response being extended one month by the Petition at the end of this paper, please first amend the subject application as follows:

In the Claims:

1. (Amended.) A retractable packing segment for an apparatus that extracts work from the expansion of a gaseous working fluid, said apparatus comprising a rotating shaft disposed in a casing, said packing segment disposed in a ring formed from a plurality of packing segments and centered on an axis defined by said shaft to provide a seal therearound, said segment comprising: an inner face for sealing against said shaft; at least one brush seal disposed on the inner face of said segment; opposing side ends of said segment cut parallel with radii of said axis; and said brush seal having opposing ends at least one of said ends cut non-parallel with radii of said axis.
